

CONVENTIONAL WIPER BLADE

**GRAPHITE TREATED
WIPING EDGE**

Reduces Noise & Chatter

**GALVANIZED STEEL
FLOW-THRU FRAME**

Added Robustness & Durability

AERODYNAMIC DESIGN

Reduces High Speed Wind Lift

REQUIRED CONNECTORS INCLUDED

Hook

Small Pin

Large Pin

2 Screw
Bayonet ^

7mm
Bayonet ^

^Available on selected lengths only

QUICK & EASY INSTALLATION

- 1 Heavy-duty galvanized steel frame provides added robustness and durability
- 2 Universal pre-installed adapter for easy installation
- 3 Aerodynamic downforce reduces high-speed wind lift
- 4 Graphite-treated wiping edge reduces noise and chatter

AVAILABLE WIPER BLADE SIZES

PART#	SIZE	VIO
SCC10	10"	0.01%
SCC11	11"	0.11%
SCC13	13"	1.20%

ULTRA TECHNOLOGY

Patented Beam Blade

2

3

4

- 1 Patented beam technology with dual tension springs provide even force distribution for optimal wiping performance
- 2 Blended natural rubber with graphite treated wiping edge reduces friction and improves wiping durability
- 3 Secured double locking adapter fits most vehicles
- 4 Aerodynamic symmetrical wind spoiler provides consistent wiping at high speeds
